- ✓ Profile online

What our sponsors say

"It's very important to be connected with your customer base. FBD is synonymous with all things Agri in Ireland so it's very consistent with our brand and target market" - FBD

"GS1 Ireland found sponsoring the Agribusiness Awards to be hugely beneficial. Over 50% of our members come from the food industry. In fact several of our members commented that they were delighted to see us participating and supporting the sector. - GS1

"The awards are now a key event in the agribusiness calendar and Emydex have been proud sponsors for the past two years. It's the one event that brings all food producers together, including some of our customers.

The main benefits for Emydex over the past two years have been highlighting our support for our customers and all involved in the agribusiness industry, the exposure to new potential customers and most definitely the opportunity to network with a wide audience of key individuals within the Agribusiness Industry." - Emydex
